Languages: English – business level, Japanese – business level

Nationality: Azerbaijan

Resides / Address: Japan, Tokyo

Education:

Sep 2012 – Jul 2016

University of Azerbaijan State Oil and Industry University

Bachelor's degree, Information technology and System Engineering

- Automation and Computers Faculty

Apr 2017– Dec 2018

LABO Japanese Language Institute

- Business level Japanese language

Qualifications:

- Azerbaijan National Mathematics Olympiad Exam Participant
- IELTS certificate of proficiency 7.0
- JLPT N2
- Oracle Certified Java Programmer, Silver SE 8

Technical Skills:

Technological knowledge in:

- Java, C#
- Spring, Spring Boot, Spring-MVC, JavaEE
- MySQL, SQLite, Oracle, Access
- REST web API
- JavaScript, , HTML, CSS

- AWS,Azure
- Selenium,Selenide
- GitHub,GitLab,SourceTree
- Eclipse, IntelliJ IDE, Maven, MySQL Workbench, A5MK
- MyBatis,Hibernate,JDBS,Thymeleaf

Storage

RDBMS :

- MySQL(used for MVC)
- MyBatis:
 - MySQL(used for MVC)
- ORM: Hibernate,Mybatis
- JDBC: using spring's jdbc-template

Programming Languages

- Java 8 in production monolith
- Java 10 in production microservices
- Java 11 in experimental microservices
- C# : Visual Studio Code
- Javascript es8
- shell script(used for automation testing on ubuntu,RHEL)

Java Libraries (smaller libs not included):

- Lombok
- Jackson
- Thymeleaf
- Maven (as java dep. management and build automation)
- Spring framework:
 - Spring 4.x + Spring Boot 1.5.x: used in production monolith
 - Spring 5.x + Spring Boot 2.x: used in production microservices

Spring projects

- Spring Data:
 - Official:

- JPA
- JDBC
- MyBatis
- REST

- Spring Security (production security for REST controllers)
- Spring Batch
- Spring Session
- Spring REST docs
- Project Reactor (for reactive REST endpoints)

Frontend/Web languages/frameworks/tools/libraries

- JavaScript
- Thymeleaf
- HTML,CSS(SASS) (the LAMP stack)
- Selenide,JQuery
- JSON,XML
- Jira

Methodologies & misc.

- Iterative
- Git (-hub, -lab, etc.) & associated tools/workflows/best-practices
- Design Patterns
- Jira ticket system

Summary:

Other Skills:

- Experienced in working in a international team.
- Perseverance in reaching set goals.
- Pascal,C/C++,C#: only in education (High-School/University)

Career History:

Jan 2019 – Present

Japanese IT Company Greenways

(Jan 2019 – Present)

Software Engineer

- QA engineer/Full-Stack software engineer involved in multi-company projects.

TRAINING:

(Jan 2019-Mar 2019)

【Overview】

Java programming

Web application development knowledge

[Course contest]

- Java
- Javascript
- HTML,CSS,jQuery
- MySQL
- Spring , Spring Boot

PROJECTS:

Project 1:

Project of International IT Company PlanetWay(QA Engineer)

(Mar 2019-Jan 2020)

【Overview】

Product evaluation testing for

telecommunications carriers.

Development,quality assurance

of Web,Android,IOS applications.

[Work content]

■ Digital signature app

- QA test
- Test case creation

- App design
- JIRA ticket system management

■ SQL development tool app

- QA test
- Installation test
- Integration test
- Test case creation
- App design
- JIRA ticket system management
- SQL query editing
- Test automation (shell script)

■ Data transmission app

- QA test
- Installation test
- Test case creation
- JIRA ticket system management

【Environment】

- Java, Spring Boot, Shell Script
- Windows OS, Ubuntu, RHEL, Macintosh
- MySQL, SQLite, Oracle, MsSQL
- JIRA
- GitHub, SourceTree

Project 2:

Project of Greenways (Java Developer)

(Jan 2020 - May 2020)

【Overview】

- Information gathering JavaEE application for IT companies
- Manufacturing

- **Unit test**

- Creating SQL questions for training

- Creating HTML / CSS training materials

- **Creating a system that can be viewed on the web**

- **HTML / CSS repair**

- Developing of Recruit website pages for Greenways

【Environment】

- Java , Selenide , Selenium , JQuery

- JavaScript,HTML,CSS

- MySQL

- GitHub,SourceTree

Project 3:

Project of Apparel company (Java full-stack Developer)

(May 2020 - Present)

【Overview】

- Development of ordering system

- Screen repair and batch repair related to ordering

- Creating test specifications

- Unit test

【Environment】

- Java, Spring Boot , Spring-MVC

- JavaScript,HTML,CSS,JQuery

- MySQL

- Maven,Thymeleaf,MyBatis

- Eclipse , MySQL workbench,SourceTree

- GitHub

INTERESTS:

Games & Sports : Soccer, Volleyball, Wrestling, Nature, Chess
